### Maths

Q1.a)-Research the amount of waste produced by your household in one week.

b) Use this data to calculate how much waste is produced in a month and in a year.

c) Identify the ways in which you and your family can reduce household waste.

Q2. Lakshadweep, a group of islands off the western coast of India, has a unique culture and environment.

- Research the traditional art forms of Lakshadweep, such as Lava Dance, Kumari Nritham, and Parichakali.
- Use math to create geometric patterns or designs inspired by these traditional art forms. For example, you can:
  - use a protractor and ruler to create a grid of squares or triangles
  - use a compass to create circles or arcs in symmetrical patterns
  - use fraction or percentage calculations to ensure the proportions and dimensions of the design are accurate

- Once you have created your design, you can use art materials such as paint, markers, or coloured pencils to fill in the shapes and create a colourful artwork

Q3. Revise all the chapters done till now.

### **Science**
